WHAT'S INSIDE THE BOX

Klever Hub

Ethernet cable

Power supply

TECHNICAL REQUIREMENTS

The Klever Hub is the brain of the Kleverness System and works in connection with the other Klever Products you install throughout your home

The Ethernet cable must be connected to a WiFi router with a working internet connection

INSTALL YOUR KLEVER HUB

Connect one end of the ethernet cable to the Klever Hub and the other end to your WiFi router

Connect the corresponding end of the power supply to a power outlet and the other end to the power port on the back of the Klever Hub

If the connection is successful, the LED light will turn blue after 30 seconds

LED indicators:

Blue: Klever Hub is correctly connected

Turquoise: Klever Hub is undergoing a software update. Please wait and do not disconnect the device

Purple: There was an error when installing the Klever Hub
Please enter the App and follow the corresponding instructions

Flashing red: Physical error on the Klever Hub. Please contact our customer service via email (hello@kleverness.com) so that we may provide the best solution

Constant red: The Klever Hub cannot connect to the Kleverness server. Please check your internet connection

HOW TO USE THE KLEVER HUB WITH THE APP

You can control your other Klever products from your smartphone through the Kleverness App (available on the App Store or Google Play)

or with your favorite voice assistant.

You will be able to take advantage of smart functions throughout your home. Optimize and reduce your energy consumption, use routines to adapt your home's lighting to your everyday life, set zones to perform various actions with a single button, or activate vacation mode to increase your home's security when you're away

SAFETY AND REGULATORY GUIDE FOR THE KLEVER HUB CONTAINED IN THIS BOX (THE “PRODUCT”)

This booklet provides important safety, regulatory, and warranty information that you should read before you start using this device. An online version of this document can be found on www.kleverness.com.

Health and Safety Information

Basic safety: To avoid damaging the Product, its accessories or any connected devices, appliances or products, and to reduce the risk of personal injury, discomfort, property damage or other potential hazards, follow the instructions and precautions set forth below and those found at the Kleverness App.

- Handle the Product with care. You may damage the Product if you disassemble, drop, bend, burn, crush or puncture your Product. Using a damaged Product may cause overheating or injury, and can cause fire, electric shock, injury, or damage to you, the Product or other property.
- Don't expose the Product to liquids, which can cause a short circuit and/or result in the Product overheating. Using the Product when moisture is present, can cause fire, electric shock, injury, or damage to you, the Product or other property. If the Product gets wet, do not attempt to dry it using an external heat source.
- Using damaged wires, cables, power adapters or accessories, or using your device when moisture is present, can cause a fire, electric shock, injury, or damage to the device or other property. When using the Product, make sure the power adapter is plugged into a nearby socket and is easily accessible.

- The Product is intended for use with its original accessories, connectors and power adaptors. Only use the Product with the included accessories, connectors, power adapter and cable. Failure to use compatible accessories can cause fire, electric shock, injury, or damage to you, the Product and other property.

Manufacturer address:

340 S Lemon Avenue #2291, Walnut, CA, 91789 USA

FCC Compliance Statement Compliance Notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Contains FCC ID: 2AD66-915

This device complies with part 15 of FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 8 inches during normal operation.

Industry Canada (IC) Compliance Notice

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1.This device may not cause interference.
- 2.This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

RF Exposure Statement

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This transmitter must be installed to provide a separation distance of at least 8 inches from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter.

WARNING

Changes or modifications not expressly approved by Kleverness Incorporated could void the user's authority to operate the equipment.
